ABOUT THE PROGRAMME

Overview

Computers and other electronic media are being increasingly used to commit crimes. Hence they serve as potential evidence of crimes and provide information on suspects and victims irrespective of their geography. Digital evidence can be found on pen drives, smartphones, hard disks, etc., and can be hidden in images, videos, encrypted files, etc. It can even be altered, damaged, or destroyed easily from improper handling or examination. This warrants the need to preserve such evidence with utmost care.

1

Objectives

The objective of this workshop is to give all attendees a clear picture of the nature of cybercrimes and how to investigate such crimes with new technology and procedures. Since new cybercrimes arise by a leap of development of telecommunication and information technologies, investigators must face such challenges with creative reasoning and technical skills.

2

Pre-requisite

- Anyone managing an organization that processes such a crime scene.
- Sound understanding of computer basics.
- Anyone who wish to understand the legal and technical requirements necessary to carry out a successful high technology investigation.
- Knowledge of Law and Technology would be an added advantage.

3

Program Suitable For

Personnel working with Physical Security, Fraud Investigations, Forensic Accounting Unit, Fraud Control Unit and IT Security. New entrants in the above domain are also welcome.

4

CURRICULUM

Introduction Digital Forensics and Best Practices in Search & Seizure

- Introduction to digital forensics
- E-discovery v/s Digital forensics
- Digital forensics in investigation.
- Search & Seizure of Electronic Devices
- Evidence handover process

1

Practical simulation exercise – 1

- Each participant shall perform hands-on;
- Search & seizure in simulated crime scene
 - Relevant documentation
 - Systematic hand-over of evidence
 - Relevant reporting

2

Gathering Relevant Information before Electronic Crime Scene Investigation

- Introduction to information gathering
- Type of questions
- Practical simulation exercise on information gathering

3

Practical simulation exercise – 2

- Each participant shall perform hands-on;
- Search & seizure in simulated crime scene
 - Relevant documentation
 - Systematic hand-over of evidence
 - Relevant reporting
